Mission

York County Aging Services is dedicated to maintaining the independent lifestyle and dignity of older adults in our communities. We work to develop and maintain a network of coordinated, community based services and activities. We strive to strengthen home and family living for persons 60 years and older and to foster full participation by elders in community life and opportunities.

York County Aging Services is jointly sponsored by County, State and Federal Funds made available through the York County Board of Commissioners and Aging Services (Lincoln Area Agency on Aging). Contributions for services and donations also help to support the Program.

Care Management Services

The program's care manager is trained to help older people through difficult situations.

By providing a professional assessment of need and through available resources, those involved can make wise decisions.

Following the assessment, the care manager will:

- ❖ Explain available services and all possible options.
- ❖ Make arrangements and help plan how to make best use to community resources.
- ❖ Help make arrangements to get services started.
- ❖ Continue to work with the older person to make sure the plan is working

The fee for Care Management Services is based on the client's income.
